

EXCLUSIVE CLEANSING BALM 80G

PART OF EN BRAND – JAPANESE LUXURY COSMETIC LINE YOU DESERVE

MADE IN JAPAN – at the foothills of Mt. Fuji
QUALITY YOU CAN TRUST

An amazing balm-type cleansing cream made from rosehip oil, sunflower oil and other fine quality vegetable oils. 0.1% hydrolyzed golden swallow's nest extract is one of the key ingredients in this formula. The balm completely removes makeup and pore dirt without stressing the skin. It can also be used in massage, when the synergy of its blood circulation promoting ingredients boosts the detoxification effect. Its Japanese sake extract contains various amino acids and other organic acids, and the peeling properties of these acids promote skin clarity.

Additionally, the complex of seven purposely selected herbs included in the formula, provides such effects as anti-oxidation, anti-inflammation, immune regulation, and brings balance and damaged skin revitalization.

This is a cleansing cream for resetting the rhythm of your skin. Through proprietary manufacturing technology, our cream offers combined cleansing and treatment functions. It provides six effects: pore dirt removal, keratin peeling, immune - stimulation, blood circulation improvement, anti-oxidation, and cell activation. It changes from solid form to liquid when warmed up in your hands. Fresh fragrance, coming from a natural essential oil complex, is soothing and relaxing during massaging.

KEY FUNCTIONS & INGREDIENTS:

1. Dissolution and complete removal of pores' dirt
2. Keratin peeling

Japanese sake extract contains natural moisturizing factor, amino acids and polypeptides. It is also rich in lactic acid and malic acid, which are byproducts of fermenting malted rice and yeast. Old keratin is being hydrated, while organic acids remove it and cell renewal process is activated.

3. Promotion of blood circulation

Citrus Unshiu peel extract contributes to the strength and health of capillaries.

4. Immune-stimulation

A multi ingredient, the complex of seven herbs, is responsible for supporting antioxidant, anti-inflammatory, and immune-regulatory functions. It inhibits inflammation and itching associated with cytokines. It may also be effective for such skin disorders as atopic dermatitis and acne.

5. Cell activation

Once excess of old keratin is removed, the EGF (Epidermal Growth Factor) action of swallow's nest extract promotes cell renewal, and further leads to a smooth skin.
